

## **Merry Christmas. Everyone**

We enjoy Christmas together. There is plenty of coziness, happiness, good food, and presents. But even though Christmas is a feast of the heart, some do not take part in the joy.

In Denmark, many children are excluded from the traditions we share. They grow up in families with no money for neither presents nor Christmas tree and Christmas food. And when their classmates are looking forward to Christmas, they have nothing to look forward to.

For those children, December is a sad and heavy month. Christmas makes them feel left out. And for their parents, the holidays are filled with worries. Because NO mother or father wants to see the Christmas light in their children's eyes be put out.

With the Christmas aid we give an important ray of hope to vulnerable families. We help parents to let go of their worries and feel better. And we give children the opportunity to experience the joy of Christmas on the same terms as their friends. No children shall feel left out.

This year, our mission is to give Christmas aid to thousands of vulnerable families in Denmark.

The funds raised goes to this year's Christmas aid and Danish Red Cross' other initiatives for vulnerable families in Denmark.
